## Learning Experience

The Finance Lab provides a **unique opportunity to go in depth into the financial matters** illustrated over the major, with an **experimental approach** and an integrated logic. In particular, the lab addresses both **corporate finance and market finance** themes, through frontal lectures, case studies, and business & portfolio simulation.

During the laboratory, participants will be divided in **groups of 6 people** and will have the opportunity to **develop a project**, in cooperation with banks, top asset managers, financial and industrial companies, **experiencing the real life of a career in finance**.

As an experiment, from 2022 some of these projects will be developed in **cooperation with students from international universities**.
