Campus & Campus Life Relationships

尊师重道

Chinese tradition values teachers and respect to seniors. It is a virtue to honour teachers and esteem truth.

This is the main traditional cultural value that influences the psyche of Chinese people. Harmony means “proper and balanced coordination between people and things”.

“Is it not pleasant to learn with a constant perseverance and application? Is it not delightful to have friends coming from distant quarters? Is it not the mark of a leader to remain unconcerned when others do not recognize your talents?”

The Analects of Confucius
